1. CHARACTERS

ROLLING A CHARACTER

Roll a 3d6 for each Ability Score.

STRENGTH — fortitude and physical prowess.

DEXTERITY — sneaking, athletics, and reflexes.

WILLPOWER — self-discipline and magic.

In addition, roll 3d6 as your Extra Roll. You may then swap any two of your rolls once. After this, the Extra Roll is your starting money in Shillings.

An Ability Score of 10 is the human average.

Roll d6 for your Hit Points, a measure of how safe you are from taking life-threatening Critical Damage. More HP means the character is safer.

Finally, choose one Feature, a Background, and buy some Equipment.

FEATURES

Choose one Feature now, and each time you gain a new Experience Level.

✦ ASSASSIN ✦

Your Enhanced attacks against unaware, disarmed, or Restrained opponents bypass HP.

✦ GUNSLINGER ✦

You can reload a firearm immediately if you did not move this turn and have a free hand for this. You can spend a turn aiming at one target, Enhancing your firearm attack against it on the next turn.

✦ HEALER ✦

Gain 5 Shillings worth of healing supplies. While resting, spend 5 Shillings worth of healing supplies to restore d6 Ability Score Loss to an ally or yourself, or take a 4-in-6 chance to subdue one ailment.

Healing supplies are available for purchase in most settlements and can be used by Healers only.

✦ IRONCLAD ✦

Roll twice for HP and take the better result.

Full Armour does not impose its Disadvantages on you and you can employ the shield while wearing it.

2. PLAYING THE GAME

RULES

Saves

Roll d20 equal or under the appropriate Ability Score to succeed. 1 is always a success and 20 is always a failure.

Advantage and Disadvantage

Whenever someone has increased or decreased odds of succeeding on a Save, the Referee may give them Advantage or Disadvantage. Roll twice and take the better or worse of the two rolls respectively. Advantage and Disadvantage cancel each other out.

Taking your Turn

In a combat situation, the Referee decides which side acts first. When this is unclear, player characters must pass DEX Saves to be able to act before their opponents. After such initial turn, all player characters act together as usual, **1 minute** per combat turn.

Each turn, characters can **move** about 30 ft. (or **change items** they are holding instead) and **then** carry out one **action** (or forgo it for another **move**).

At the start of the turn, all characters declare their intentions, and **after that** the dice are rolled.

Attacking

Roll your weapon's Damage die, or for both weapons if wielding two, along with any bonus Damage dice you have. The highest single roll is identified, and the attack causes this much Damage.

Ranged weapons cannot be used while engaged in melee combat.

Ganging Up

Each target can take a single die of Damage in a turn.

When multiple attackers choose the same target, they roll together in a single attack, keeping the highest result, plus 1 point of Damage for each additional attacker, up to +5. Once the attack has been resolved, the target cannot be attacked again until their next turn.

Attacks that reduce Ability Scores are grouped together by the Ability Score and resolved the same way, separate from normal attacks.

Ganging Up: Easy Mode (optional)

For a more "cinematic" combat feel, you may forgo bonus Damage from additional attackers.

Impaired and Enhanced Attacks

Attacks that are Impaired, such as firing through cover or a resistant target, roll d4 Damage regardless of weapon, no bonus Damage dice allowed.

Attacks that are Enhanced by a risky stunt or a vulnerable target gain bonus d12 Damage die.

Enhancement and Impairment negate each other.

Manoeuvres

Instead of making a normal attack, you may spend your turn trying to carry out another manoeuvre, such as knocking an opponent down, snatching an item or fleeing. In these cases, the side most at risk makes a Save to avoid consequences.

Armour

Armour subtracts its score from the result of any Damage rolls against the wearer.

If the Damage bypasses HP, it is still affected by the target's Armour unless stated otherwise.

Total Armour score for a creature cannot exceed 3.

Mounted Combat

Mounted troops in melee gain +1 Armour and bonus weapon Damage die against unmounted opponents but generally cannot employ two-handed weapons. On clear terrain, their **move** in combat is doubled.

Damage and Critical Damage Saves

When taking Damage, lose that many Hit Points. If you have any HP left, then the attack was mostly avoided or only a minor wound was inflicted.

When you run out of HP, any remaining Damage is removed from your STR score. Now you must pass a STR Save to avoid Critical Damage.

Blast Damage

Blast attacks affect all targets in the appropriate area, rolling once for each target. If unsure how many targets are affected, roll Damage die.

Critical Damage

On a failed Critical Damage Save, characters take Critical Damage and are unable to take further action until they are tended to by an ally and have a Rest. If they are left untended for an hour, they **die**.

Ability Score Loss

The character **dies** at STR 0. At DEX 0 or WIL 0 the character is **paralysed** or **catatonic** respectively, cannot act until Healing and must be carried to safety.

Death

When a character dies, the player creates a new character and the Referee finds a way to have them join the group as soon as possible. Alternatively, the player may take control of a Hireling or Apprentice.

Morale

The leader of a group must pass a WIL Save to avoid their group being routed when they lose half of their total numbers. Lone combatants must pass this Save when they are reduced to 0hp. This applies to opponents and allies but not player characters. Mindless or fearless opponents are exempt as well.

Retreat

Fleeing to safety under pursuit requires a DEX Save choose a new **Feature**, gain **d6hp** and roll **d20 for** each **Ability Score**. If the roll is higher than the **Ability Score**, it increases by one to a maximum of 20. If neither **Ability Score** has changed, increase your lowest **Ability Score** by one to a maximum of 20.

Rest

A few minutes of rest and a swig of water will recover all of the character's lost Hit Points but may waste time or attract danger. HP restoration might be prohibited due to harsh weather, hostile environment, lack of rations, etc.

Healing

Ability Score Loss and other serious ailments require the aid of an Expert service or magic to recover.

AFTER THE ADVENTURE

Generally, the goal of an Adventure is to find out about a mysterious environment, destroy a powerful threat, or seek out mysterious treasures.

EXPERIENCE LEVELS

After completing the requirements for the next Experience Level, you may take a break from adventuring to reflect upon your experience. Describe what the character has been doing during this time, whether humble or grand. After that, you move to the next Experience Level. You cannot advance more than one Experience Level in a single session of play.

Retreat

When advancing to a new Experience Level, you choose a new **Feature**, gain **d6hp** and roll **d20 for** each **Ability Score**. If the roll is higher than the **Ability Score**, it increases by one to a maximum of 20. If neither **Ability Score** has changed, increase your lowest **Ability Score** by one to a maximum of 20.

3. RULING A DOMAIN

Any community of 100 or more people is a Domain. One or more characters may have rulership of a Domain, with the potential to establish a part of the world as their own.

SIZE SCORE AND POPULACE

Size Score, or SIZ, is a measure of the populace of your Domain and may reach a maximum of 20.

SIZ	Populace	SIZ	Populace	SIZ	Populace
0	<100	7	7,500	14	100,000
1	100	8	10,000	15	150,000
2	300	9	15,000	16	200,000
3	600	10	20,000	17	300,000
4	1,000	11	30,000	18	500,000
5	3,000	12	50,000	19	750,000
6	5,000	13	75,000	20	1,000,000

At the **start** of each month, choose Domain Focus — this goal is achieved at the **end** of the month:

- **Funding:** You spend 1s for each of your populace this month. Choose an extra Domain Focus. You do not need to roll for Unrest this month.
- **Taxation:** You gather extra money this month, gaining 1s for each of your populace.
- **Growth:** Roll d20. If this is higher than your SIZ, then your SIZ is increased by 1.
- **Conscription:** Recruit an army (see **Training Soldiers**). SIZ is decreased by one, and you cannot repeat Conscription until it increases again. Next Growth roll will have Disadvantage.
- **Prosperity:** You do not need to roll to see if there is Unrest in your Domain this month.

Unrest: At the **end** of the month, roll d20. If this is lower than your SIZ, there is Unrest in your Domain. 10% of populace revolts and can seize control of your Domain unless quashed. SIZ is decreased by one.

ARMIES AND WAR

Training Soldiers: 20% of populace are fit for calling into service as poorly skilled conscripts (3hp). A further 1% of your populace are professional soldiers (STR 12, 5hp, Novice Warrior). All troops must be equipped as required.

An army that won a battle against an equal or stronger opponent can be trained further at the rate of 1% of your populace per month.

Conscripts become soldiers (1s/person), and soldiers become champions (10s/person) (STR 14, 10hp, Proven Warrior).

Large Battles: When handling large numbers of combatants (usually 10 or more), they should be massed together as a unit. Units have the same Hit Points as a single combatant, but add 1 Damage for as many times to one they outnumber their opponents (or subtract if outnumbered), from -5 to +5. E.g., a unit of 200 cavemen fighting 50 spearmen outnumber them 4-to-1, gaining 4 bonus Damage.

When units fail a **Critical Damage Save**, their numbers are halved, and they must pass a WIL Save or break and disband. At STR 0 they are wiped out.

Individual attacks against units are Impaired.

Unit attacks against individuals are Enhanced, add +5 bonus Damage, and cause Blast Damage.

Unit attacks that cause Blast Damage against units have bonus weapon Damage die.

Sieges: Wooden walls have 6hp, Armour 6, and stone walls have 8hp, Armour 8. Reducing a wall to 0hp allows passage over it. Walls and other defensive structures usually ignore Damage from anything but siege engines and such.

Siege Engines cause d12 Blast Damage.

See **Structures and Sieges** in **Appendix A** for more details and additional information.

4. MAGIC

Written in Runic and found in Tomes and Scrolls, **Spells** require a few minutes of uninterrupted calm and attention to cast, as well as requiring a set of detailed gestures and incantations. Consequently, Spells are generally impossible to cast in combat.

Mystics can cast any Spell of a Circle **equal or lower** to their Mystic Level.

Focus

Every Mystic carries a Focus, typically an orb, wand, or staff that allows to instantly cast a Prepared Spell or any Cantrip you know as an **action** while performing the proper gestures and incantations. It does not work when wearing **armour**, except for Cantrips.

Prepared Spells and Spellburn

During the Rest, you can use your Tome to prepare a number of Spells equal to your Experience Level to cast using your Focus as an action.

Casting a Prepared Spell as an action causes **Spellburn** Damage to the caster equal to **2hp per Spell Circle ignoring Armour**. At 0hp, Spellburn targets WIL instead of STR: pass a WIL Save to avoid Critical Spellburn or be Stunned for the next turn.

Optionally, this also causes a **Magic Mishap***.

Signature Spells

Each time you take Mystic Feature, choose an additional Spell to cast without preparation and at half its cost (**1hp per Spell Circle ignoring Armour**).

Scroll Activation

If needed, Mystics can activate a Scroll as an action. The Spell is cast as **Signature**, destroying the Scroll.

Amateur Scroll Activation (optional)

If the Circle is **lower** than their Level, non-mystics can succeed on a WIL Save to cast the Spell as **Prepared**, or botch it, suffering a **Magic Mishap*** instead. The Scroll is destroyed in either case.

Ongoing Effects of any Spell last while you are conscious, or until you cast a new Spell, but summoned extraplanar beings remain. When taking Damage, succeed on a WIL Save to maintain the Spell.

Persistent Spells have their effects last as long as you wish or until you cast the same Spell again. You can sustain up to **2 × Mystic Level** simultaneously.

* See **Magic Mishaps** in **Appendix A**.

Cantrips are minor tricks and not true Spells, do not interrupt ongoing effects of the previous Spell, and require you to use your **Focus** to cast them.

Scrolls of new Spells found by Mystics are usually attached to the Tome for the convenience of usage.

Dispel

The Focus can be used to **dispel** the ongoing effect of another Mystic's Spell unless they pass a WIL Save. If their Mystic Level is higher than yours, they get an Advantage.

Dispelling a Persistent Spell requires **you** to make a WIL Save instead. On fail the Spell stays, and you suffer WIL Loss based on the Spell Circle: from d2 (Cantrip) to d12 (5th Circle). If your Mystic Level is higher than the Spell Circle, you have an Advantage.

See **Manufacture of Magic Equipment** in **Appendix A** for the additional information on the creation of Focuses and Scrolls.
